RENOVATE
CENTER
BUILDING

RENOVATE PLAYGROUND
AS NEEDED.

We heard you!

Over the past several months, CRPD staff has gathered input from various initial public and stakeholder meetings as well as an online survey and, as a result, developed and established guiding priorities for the community's future vision of Conejo Community Center and Park:

Sense of Place is the most significantly cherished component of the current property. The Center and Park is an extension of the residents' homes and an integral part of the neighborhood.

Topography and Natural Features will be preserved and remain intact, while further highlighting the natural value provided to the site. The development will be minimized to alter existing conditions, though major built features will complement the property to balance the developed site and natural terrain.

Renovated Center Building will be expanded while keeping its character and scale that complements the neighborhood. The building will be brought up to today's construction standards and will be given improvements.

Programming abilities will be expanded with the additional interior and exterior spaces for current and future opportunities. Enhancements will be made for the year-round programs and events.

You are invited to attend a community meeting where CRPD staff will present conceptual plans and ask for your feedback. All meetings will be held on-site in the multi-purpose room in the Center at 1175 Hendrix Avenue.

If you wish, you may attend both meetings, however, each meeting will have a similar format. You can also visit the project webpage at www.crpd.org/ccproject, where you will find additional and ongoing information, including the conceptual plans, frequently asked questions, timeline, photo gallery, and the history of Conejo Community Park. If you cannot attend either meeting but would like to provide your feedback, please email Tom Hare at thare@crpd.org.

Meeting Dates

➤ **Sunday**
February 9
1:00 pm

➤ **Thursday**
February 13
6:30 pm
